

AGNI-System №AP-096

Step-by-step installation instructions:

1. Ensure the aperture is free from dust and debris.
2. Remove the base fabric of AGNI-Sleeve before installation.
3. Wrap 120mm wide AGNI-Sleeve around the service, where 10mm of AGNI-Sleeve extends beyond the CLT wall on both sides.
4. Seal all joints with a nominal 5mm bead of AGNI-Seal on both sides of the wall.

Technical Information

System ID	AP-096
Substrate	Min. 100m CLT wall
Service range	DN 16mm - 25mm PEX pipe
Annular gap	4.35mm - 6.65mm
AGNI-Products	AGNI-Seal, AGNI-Sleeve
Protection installation	Both sides of the wall

Compliance Information

Standards	AS1530.4-2014, AS4072.1-2005
FRR/FRL	-/60/60
Reference	PF24086
